

EXPRESS SCRIPTS®

We know you're focused on achieving the lowest possible drug costs. Getting there requires drug-spend management on the pharmacy and medical benefits.

Now is the time to bring medical drug spend under control.

NEW SPECIALTY DRUG APPROVALS HAVE SURPASSED TRADITIONAL DRUG APPROVALS BY ~67% FOR THE PAST 5 YEARS¹

RAPID GROWTH FROM SPECIALTY MEDICATIONS MAKE UP OVER 50% OF A PLAN'S TOTAL DRUG SPEND²

~73% OF APPROVED BIOSIMILARS ARE PROVIDER-ADMINISTERED AND TYPICALLY MANAGED UNDER THE MEDICAL BENEFIT³

Managing your total drug spend likely requires working with multiple vendors, connecting internal partners and working directly with manufacturers. This fragmented model has created an administrative burden — without adding financial value.

Imagine the ease of **one point of accountability** to manage your pharmacy and medical drug spend.
